

How to make a Tornado in a Jar

Everyone knows that natural disasters are amazing. So imagine how cool it would be if you could recreate your very own tornado at home! Follow these instructions and we will show you how to make an incredible, working tornado in a jar!

You will need:

A jar

Water

Washing up liquid

Vinegar

Glitter

Method:

1. Get an empty jam jar. Clean it out and remove the label.
You should be able to do this easily by running the jar under warm water.
2. Fill the jar $\frac{3}{4}$ full of cold water from the tap.
3. Add 1 tsp of vinegar to the jar and stir.
4. Add 1 tsp of washing up liquid and mix until all the liquids are combined.
5. Sprinkle in a small amount of glitter.
6. Put the lid on the jar as tightly as you can to avoid any spills.
7. Swirl the water in the jar, then place it on a flat surface.
8. You should see your very own tornado swirling in the jar!

We hope you enjoyed making your own tornado in a jar. Now you know how to do it, you can amaze all your friends and help them create their own swirling vortex!
